### **DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Election/Restrictions***

2. Applicant's confirmation of election of claims 1-16 in the reply filed on October 27, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

#### ***Claim Rejections - 35 USC § 102***

3. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by the Davey patent (EP 0 949 199).

The Davey patent teaches a composition comprising nanotubes and organic material having a coiling structure, i.e. the organic material "wrapping about the nanotubes": See the Davey patent, page 3, paragraph [0012] and claims 11 and 13. The polymer-wrapped nanotubes are taught to form composite in various electronic, biomedical and optical devices (page 7, paragraph [0060]). Therefore, the polymer-wrapped nanotubes form bonded structure with each other.

4. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by the Smalley publication (US 2002/0068170).

The Smalley patent teaches carbon nanotubes having polymer wrapped about the nanotubes. See paragraph [0015] and figures 2A-2C. The nanotubes aggregated (paragraph 0017)); therefore they form bonded structure with each other.

5. Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new grounds of rejections set forth above.

6. References not relied upon are cited as art of interest.
